Regulatory Compliance

The device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.

FCC Certification

The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment.

The equipment operates, uses and can radiate radio frequency energy and it may cause interference to other equipment that may not be designed to be immune to such interference. However, there is no guarantee that if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and the receiver.
- Connect the equipment to a power outlet not on the same circuit as the receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Declaration of Conformity

Hereby, Vencer O.A. Ltd. declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
